Architecture Advanced Concepts

ArcAdvCon - Version: 1

1 day course

Description:

Architecture is about the important stuff...whatever that is. (Ralph Johnson)

Intended Audience:

Architectures

Topics:

- **Software architecture and architects**
 - What is architecture, and how do we document it
 - Architecture roles and responsibilities
- **Cloud-Native Architecture**
 - Building cloud-native solutions, containers, and orchestrators
- **Database and Data Persistency**
 - Relational, No-SQL DB
- **Architecture styles and patterns**
 - Monoliths and distributed architecture styles
 - Layered, pipe, microkernel, service-based, event-driven, space-based and microservices architecture

-
